Protecting Children's Privacy

Consumers Professional Credit Union does not knowingly collect, nor is our web site designed or directed to use personal information from children under the age of 13 without obtaining verifiable consent from their parent or guardian. We do offer youth savings accounts and certificates of deposit, as well as student savings and checking accounts. We do operate credit union branches at designated elementary, middle and high school locations.

It is our policy to obtain written permission from a parent or legal guardian before publishing a photograph of a minor child on our website or credit union social media forum. The parent or legal guardian may revoke this permission at any time by contacting the credit union. Consumers Professional Credit Union is not responsible for other parties' use of a published photograph.

Consumers Professional Credit Union deletes photos of minor members once the intended purpose is completed and deletes all photos after 3 years. Images are stored on credit union owned and controlled computers to which only authorized credit union employees have access.
